To Whom It May Concern

I am pleased to provide a letter of reference for Argue Construction Ltd.

Argue was the Design-Build contractor for the construction of our new facility in Ottawa. I have nothing but praise for the way the project was handled from start to finish.

We required a new shipping facility providing warehousing and office space. The Argue Team was very involved with this project, and was instrumental in suggesting improvements that would generate savings to our budget, without sacrificing any quality in the finished project. There were changes along the way, but they were handled very professionally, and the project was completed on time and on budget.

Both Gerry Nault the Project Manager, and Ben Brandino the site supervisor maintained a strong presence on the construction site. Coordination of the sub-trades was first class, and I could not have wished for a better management team.

My expectations of Argue Construction were exceeded, and I would not hesitate to recommend them. I feel they have the experience to tackle any job they take on, and if we should build another facility, I would be favourable to using them again.

Yours very truly
