Pembroke Family Medicine Teaching Unit

715 Mackay Street, Tower D, 4th Floor
Pembroke, ON K8A 0C6

Re: Argue Construction Ltd.

To whom it may concern,

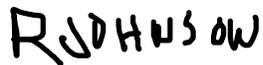

It is a pleasure to write a letter of recommendation for Argue Construction, regarding the renovation work for the Pembroke Family Medicine Teaching Unit (PFMTU). Gerry and Shawn were a true pleasure to work with: professional, timely and knowledgeable.

The PFMTU renovation took place on the 4th floor of Tower D at the Pembroke Regional Hospital (PRH) in 2021. The setting was complex and challenging, as the work took place above the operating rooms and at the height of covid restrictions, both of which imposed lots of rules and regulations on the project. Argue was exemplary in their communication and collaboration with the maintenance team at PRH, the OR managers and the PFMTU team.

The outcome is a beautiful, new, 7000 square foot family practice, which gets rave reviews from patients and clinicians alike.

I would have no hesitations in recommending Argue Construction.

Sincerely,

A handwritten signature in black ink that reads "R. JOHNSON". The letters are slightly slanted and connected, with a stylized "R" and "J".

Dr. Richard Johnson
Lead Clinician at the PFMTU
